President's Word

Greetings PSPMI members and volunteers!

On behalf of the Chapter, I would like to thank you for your passion and dedication to the project management community, during this challenging year. *We are very grateful to YOU ALL for being the key part of PSPMI.*

In 2020, we noticed how quickly organizations had to pivot to a completely virtual world. At PSPMI, we had to shift gears and adapt to the new reality by working even harder to deliver value amidst a global pandemic. We certainly miss seeing you at the in-person events that we had before – we have had some of our best networking sessions and conversations with you then.

As PMI wraps up PMI 2.0 and heads into **PMI 4.0**, local chapters are transforming and changing. PSPMI is one of the Chapters that are in the heart of this change. We are partnering with PMI Global on several initiatives by piloting new innovative trainings and offerings, and creating continuous value to all our stakeholders.

In 2020, we also continued our focus on youth, students and professionals looking for career opportunities. We are attracting these members and volunteers to what we stand for and what we advocate. I am glad to share with you the latest recording from a collaborative session between City University of Seattle and PSPMI on **How to Accelerate Your Project Management Career**.

Finally, I would like to invite you to attend our last event for 2020 this Sunday, the 13th - **PSPMI's Got Talent**. Join us to share stories and have some holiday cheer!

I wish to you, your families and friends, a better 2021! We will be here for you along the way.

Have a great Holiday season!

Thank you,
Monika Petrova

Join us today at PSPMI's Holiday Party

PMI Puget Sound chapter is delighted to organize this year's holiday virtual event. The theme is "PSPMI Got Talent!". This will be a blended interactive event with live hosts, curated videos, and voting via Zoom webinar. You and your guests are invited to attend. Mark your calendar for today - **Sunday, December 13, 2020**, for a fun-filled event, jam-packed with holiday cheers, laughter, socializing, entertainment, and celebration!

Volunteer Updates

Welcome Bertrand Nkei!

Bertrand Nkei, PMP, PMI-RMP, MBA is a business leader in aerospace company, where he leads a diverse group of engineers to develop cutting edge products and systems for space applications. He currently serves on the Puget Sound PMI board as the Director of Sponsorship, and working toward establishing partnerships with companies, universities and professional organizations. He believes that passion, delivering results, building trust

and humility are key to effective collaboration.

Open Position

Project Manager Reporting and Analytics - This PM will be responsible for the development, collection, maintenance and presentation of data and analytics, as well as providing data insights and strategic recommendations on tactical and operational delivery to help the growth of Puget Sound Chapter's volunteers. If interested please apply [here](#).
